ITW

Acorn Paper Products is proud to offer the following ITW products for package handling and protection needs along with the entire ITW product line. Please contact your Acorn Paper Products representative for more information or a custom printing quote.

Angleboard®

Angleboard® paper edge protection helps repel and absorb corner impacts and prevents strapping from damaging load corners. Angleboard provides greater load unitization, stacking strength and material savings when combined with strapping or stretch film. Most Angleboard is fully wrapped with an outer layer of paper, providing a cleaner, crisper appearance, extra strength and added protection. The smooth edges also prevent paper cuts.

- 100% paper
- Crisp, clean appearance
- Smooth edges
- 2-color printing available
- Recycled and recyclable

Cornerboard®

Manufactured from recycled paper and plastic, Cornerboard® provides exceptional strength and rigidity for the most demanding applications. This patented corner protection product enables palletized loads to be strapped with greater tension, ensuring maximum load security during transit. Cornerboard also accepts nails, staples and screws.

- Coextruded paper and plastic
- Water resistant
- Exceptional strength
- 2-color printing available
- Recycled and recyclable

I.D. / O.D. Protectors

This economical line of products provides protection inside and out on round items.

- Great for protecting coil and roll edges
- Uniquely design for inside and outside diameters
- Available in standard and custom-made thicknesses and sizes
